1. Introduction

There are three Reference Guides for Providers to use during Enrollment or Re-Enrollment:

Standard Abbreviations and Postal Information

Valid Provider Type-Specialty Pairs

Allowed Services by Provider Types

In this *Reference Guide for Valid Provider Type-Specialty Pairs* you will find:

- Table 2-1 for individual providers;
- Table 3-1 for provider groups;
- Table 4-1 for FAO with Rendering Providers Required; and
- Table 4-2 for FAO with Rendering Providers Not Required.

You will need to refer to this information during enrollment and/or re-enrollment.

Use this chart below to determine which table to use.

Enrollment applications must contain the correct provider type and specialty (or specialties). Failure to do so could result in delays in application processing or incorrect claim reimbursement. Every enrolling provider will need to use at least one of the tables in this Reference Guide. (See below.)

Enrollment Type	Reference Guide Table(s) to Use	In this Guide ...
Type 1 – Individual	Individual Providers	See Table 2-1
Type 1 – Individual as Group or FAO	Provider Groups	See Table 3-1
	FAO with Rendering	See Table 4-1
	FAO Non-Rendering	See Table 4-2
Type 2 – Incorporated Individual	Provider Groups	See Table 3-1
Type 2 – Organization as Group or FAO	Provider Groups	See Table 3-1
	FAO with Rendering	See Table 4-1
	FAO Non-Rendering	See Table 4-2
No NPI Type – Atypical Provider	FAO Non-Rendering	See Table 4-2

Reference Guide for Valid Provider Type-Specialty Pairs**

New combinations of provider types and specialty pairs are added from time to time and pairs are also sometimes removed. If you don't see your PT/SP combination type here and believe it should be here according to a ListServ message or reasonable expectation, you may go on the MIHMS Health PAS Online Portal to see if your provider type is displayed as available (and therefore, valid) in the system or you may call Provider Enrollment for more information.

2. Individual Providers

The following table lists the provider types and specialties that are appropriate and valid for individual providers. For those provider types that do not require a specialty, the specialty listed in the table is *000-No Specialty Required*.

3. Provider Groups

The following table lists the provider types and specialties that are appropriate and valid for provider groups. Note that the specialties for all provider groups in this table are derived from the rendering providers' specialties during the enrollment process.

When you enroll a provider group, you will not choose a specialty. The specialty will default to 038-Derived from Rendering Specialties. When you enroll individual providers within the group, their specialties will be assigned to your provider group for as many specialties as you enroll.

For a list of valid rendering providers' types and specialties for provider groups, refer to the *Reference Guide for Allowed Services by Provider Type*.
